About me

I'm Full stack developer with Front-end experience working on projects with Vue + Nuxt.js, React, Vanilla JavaScript, HTML and CSS. Additionally, I have executed tests on websites.

On the Back-end, I have experience with Node.js, Sequelize and MySQL; I have created applications from scratch using MySQL and Node.js on the backend side.

My training includes a web development bootcamp and a second specialized program to acquire a solid foundation in frameworks and programming languages, culminating with a Master in Front-end. Currently, I am studying a specialization in Back-end that prepares me to work on projects.

I speak fluently in Italian and Spanish, and I speak English well, as I use it regularly in the work environment.

Languages

English — INTERMEDIATE

Spanish — NATIVE/BILINGUAL

Italian — NATIVE/BILINGUAL

Skills

AngularJS · Bootstrap · CSS · Docker · Git · Github · Github Actions · GraphQL · HTML · JavaScript · MongoDB · NodeJS · React · Sequelize · TypeScript · Vue

Competencies

- Creative thinking
- Written communication
- Continuous learning

Experience / Career

Databay Solution

Full stack

jul 2023 - jan 2024

I'm Full stack developer with Front-end experience working on projects with Vue + Nuxt.js, React, Vanilla JavaScript, HTML and CSS. Additionally, I have executed tests on websites.

On the Back-end, I have experience with Node.js, Sequelize and MySQL; I have created applications from scratch using MySQL and Node.js on the backend side.

My training includes a web development bootcamp and a second specialized program to acquire a solid foundation in frameworks and programming languages, culminating with a Master in Front-end. Currently, I am studying a specialization in Back-end that prepares me to work on projects.

I speak fluently in Italian and Spanish, and I speak English well, as I use it regularly in the work environment.

Technologies and Tools

CSS HTML JavaScript MySQL NodeJS Nuxt.js Sequelize TypeScript VanillaJS Vue

Lemoncode

Front-end

may 2023 - jul 2023

I had the role of Full Stack developer, in several projects using a wide range of technologies. On the client side, implemented dynamic and efficient interfaces using Vue and Nuxt, JavaScript and TypeScript.

For the layout and styles, I worked with CSS and the Ant Design (AntD) component library, providing an attractive visual experience. On the server side, I built services with Nodejs, using the Sequelize framework to interact with MySQL databases.

This integration ensured efficient data management and a scalable architecture. I worked in collaboration with the development team.

Technologies and Tools

CSS HTML JavaScript React TypeScript

Studies

Bootcamp Backend

Lemoncode

jul 2023 - Present

In this Bootcamp I will cover cloud technologies and providers such as: NodeJS, Express, Mongoose, Mongo, GraphQL, .net, Entity Framework, SQL Server, TypeScript, C#, Heroku, Amazon, Azure.

Technologies and Tools

Azure | GraphQL | Microsoft SQL Integration Services (SSIS) | MongoDB | Mongoose | NodeJS | TypeScript

Master Front-end

Lemoncode

jan 2022 - jun 2022

Lemoncode Front-end Master in frontend development, where I acquired solid skills in HTML, CSS, JavaScript, Angular and React. I experimented with projects from the working world, thoroughly explored popular frameworks such as Angular and React, developing my skills in creating modern and highly interactive web applications.

Technologies and Tools

AngularJS | CSS | Docker | HTML | JavaScript | MongoDB | MySQL | React | Scss | TypeScript | Vue

Bootcamp

Pixelpro

jan 2021 - may 2022

I successfully participated in the Pixelpro bootcamp, focused on frontend and backend development. Throughout the program, I honed my skills in HTML, CSS, JavaScript, and explored the Node.js environment to build complete web applications. This bootcamp provided me with a comprehensive understanding of development, allowing me to create projects from the front-end to the backend, thus preparing me to face challenges and contribute effectively to end-to-end web projects.

Technologies and Tools

AngularJS | CSS | HTML | JavaScript | MongoDB | NodeJS | React | Scss | TypeScript | Vue
