About me

I'm a Front-end web developer with 3+ years of experience specializing in React and TypeScript. Skilled in SCSS, React Router. On the back-end I'm skilled in Node.js, Express, and MySQL, I build responsive, accessible apps with clean, maintainable code and efficient front-end/back-end integration.

Experience / Career

Saurus - Front-end

📅 feb 2024 - oct 2025

- I work as Front-end Developer focused on creating dynamic, efficient, and user-friendly interfaces. I design multi-page web interfaces from scratch, ensuring performance, best practices, and clean, maintainable code while collaborating with the team to deliver high-quality results.

Databay Solution - Full stack

📅 jul 2023 - jan 2024

- I worked as a Full Stack Developer on several projects, creating dynamic and efficient interfaces with a strong focus on performance and user experience. I developed and integrated server-side services to ensure efficient data management and a scalable architecture, collaborating closely with the development team to deliver high-quality solutions.

Lemoncode - Front-end

📅 may 2023 - jul 2023

- Developed strong frontend skills by building complete web pages and modern interfaces focused on efficiency and scalability. This experience allowed me to optimize user experience and apply best practices in frontend development.

Studies

Lemoncode - Bootcamp Backend

📅 jul 2023 - Present

In this Bootcamp I will cover cloud technologies and providers such as: NodeJS, Express, Mongoose, Mongo, GraphQL, .net, Entity Framework, SQL Server, TypeScript, C#, Heroku, Amazon, Azure

Lemoncode - Master Front-end

📅 jan 2022 - jun 2022

Lemoncode Front-end Master in frontend development, where I acquired solid skills in HTML, CSS, JavaScript, Angular and React. I experimented with projects from the working world, thoroughly explored popular frameworks such as Angular and React, developing my skills in creating modern and highly interactive web applications.

Pixelpro - Bootcamp

📅 jan 2021 - may 2022

I completed the Pixelpro bootcamp focused on full-stack development, strengthening my skills building web applications. This experience gave me solid understanding of end-to-end development contributing effectively to web projects.
