Location:	Pistoia, Italy (Available for relocation)	Web page:	salino3.github.io/my-portfolio/
Driving license:	Class B (Car owner)	Telegram chatbot:	Weather Research Agent

KEY SKILLS

React (3+ years), NodeJS (2+ years), JavaScript (3+ years), TypeScript (3+ years), WCAG, Next.js, SQL, MySQL, PostgreSQL, MongoDB, Sequelize, AI Integration, AI API (Groq, Serper, Firecrawl, Google), grammY (Telegram Bot API), GraphQL, Bootstrap, Material UI, GIT, HTML, CSS, SCSS, Docker, Python, Vue.

ABOUT ME

I am a Fullstack Developer with 3+ years of experience specializing in React, TypeScript, and Node.js. I build responsive, accessible web applications (WCAG) and robust back-end systems, with a recent focus on integrating AI models and automated tools (Groq, Serper, Firecrawl, Google), Telegram Bot frameworks, and serverless conversational agents. Skilled in dynamic UI architecture, REST APIs, and database management, I deliver clean, maintainable code with efficient front-end/back-end integration.

WORK EXPERIENCE (references available on request)

Saurus Computer Security, Málaga, Feb 2024 – Oct 2025, Front end engineer

Role & Scope: Lead Frontend Engineer, responsible for the architecture and end-to-end development of B2B enterprise web platforms and applications.

Main activities: I have designed and developed several web projects from scratch (React, TypeScript, SCSS, HTML, react-router-dom, Zustand, createContext, RXJS, Axios, etc.), the most notable of which are an **Onboarding application with a multi-page form** and a **Risk Management and Anti-Fraud Platform** for banks and casinos.

Responsibilities: Management of the entire frontend lifecycle; engineering complex forms configured in real time from backend APIs; implementation of client-side validation, secure session management (Login/Logout), and advanced CRUD capabilities for data analysis.

Result: Delivered secure, high-performance, and fully responsive interfaces across all devices (desktop, tablet, mobile), providing our client companies with an effective tool for security management, document acquisition, and fraud prevention.

Databay Solutions computer consultancy, Málaga, Jul 2023 – Feb 2024, Front and back end engineer

Role & Scope: Developing custom end-to-end web solutions (frontend and backend) for enterprise clients, including a high-profile project for Greenpeace.

Main activities: Development of the internal management platform for Greenpeace (React, Next.js, TypeScript, Node.js, SQL, Sequelize) and creation of an interactive web platform for ethical supply chain traceability (JavaScript, HTML, CSS).

Responsibilities: Designing new front-end modules, optimizing database and back-end interactions, and processing geospatial data from APIs for dynamic map and route rendering.

Result: I modernized the user experience (UI/UX) by speeding up administrative workflows and provided a high-performance public platform for visualizing complex data in real time.

Lemoncode for Manfred Export, Málaga, Jan 2023 – Jul 2023, Frontend Developer

Role & Scope: Frontend Developer responsible for the client-side architecture for the Manfred platform's CV generator/exporter.

Main Activities: I designed and developed from scratch the web application for acquiring profile data in JSON format and transforming it into custom graphical documents (React, TypeScript, Emotion CSS-in-JS, HTML).

Responsibilities: Creating visual template rendering logic, managing data typing to prevent errors, and configuring multi-format export modules (PDF, Markdown, HTML).

Result: Provided users with a robust, stable, and highly customizable tool, making it easy to convert and download resumes into multiple professional visual formats.

EDUCATION

2023	Lemoncode Backend Bootcamp, NodeJS, Express, Mongoose, Mongo, GraphQL, .Net Entity Framework, SQL Server, TypeScript, C#, Heroku, AWS, Docker, Azure.
2022	Lemoncode Master Front End Bootcamp, HTML CSS, JavaScript, Angular, TypeScript and React.
2021	PixelPro Bootcamp, NodeJS, HTML CSS, JavaScript, Angular, TypeScript and React
2008	Italian School ITTS Platform Informatica

INTERESTS

Playing classical guitar.

Cooking Italian, Spanish and other cuisines.

I hereby authorize the processing of my personal data contained in this CV in compliance with the European General Data Protection Regulation (GDPR) No. 2016/679 and applicable local privacy laws
